AQUABIN®

• UNDERGROUND TANK 1000 AQ

- For rainwater storage
- For sewage storage
- For all other uses
- Perfect for transport, easy in installation

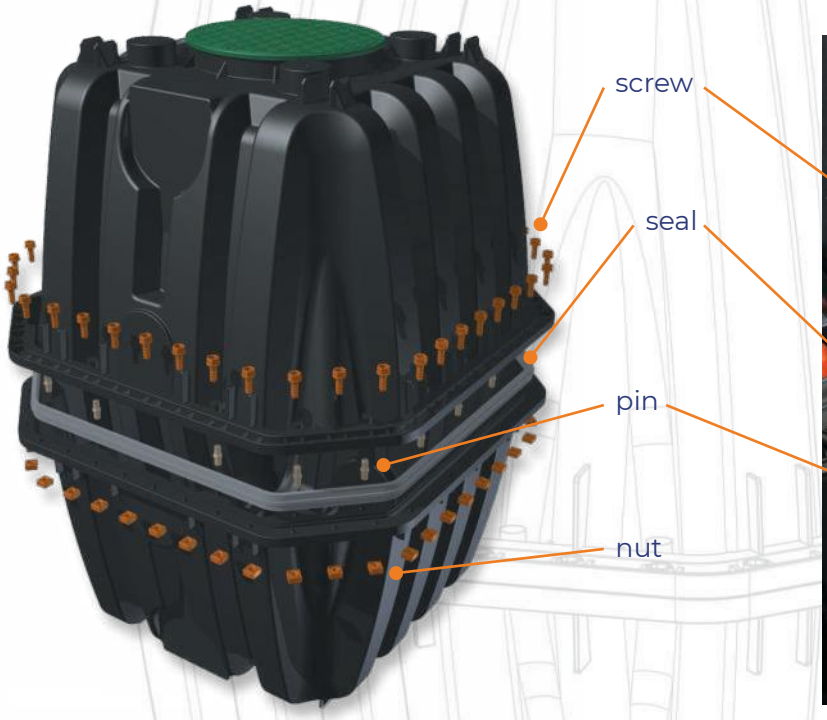

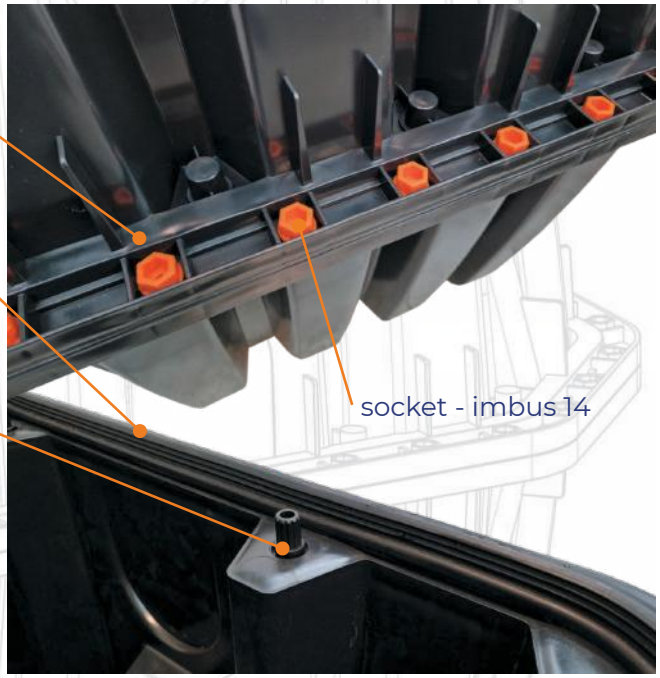

AQUABIN.PL

Tanks AQ are manufactured with a capacity of **1000 liters.** They are designed for installation in single-family homes. They can be used to build rainwater storage systems or sewage treatment plants. Standard AQUABIN tanks are equipped with a 400 mm diameter inspection hatch, which is used for pumping sewage from the tank. Tank 1000 AQ septic tanks can be connected to create systems of any capacity.

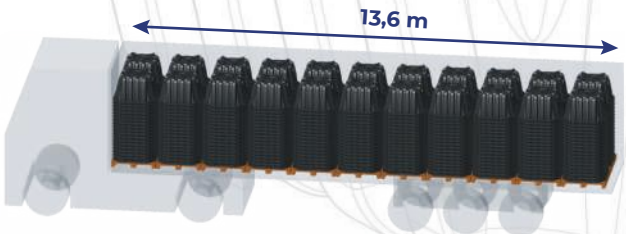

Tank type and volume [l]	Lenght (mm)	Width (mm)	Height (mm)	Inspection hatches (mm)	Weight (kg)
TANK 1000 AQ	1170	1170	1410	1 x 400	50

STRENGTH ACCORDING TO EN 12566-3
- Backfill (height of the backfill above the tank) : 0,6 m
- WET(groundwater level): 1,0 m
